

Offset back tubes allow redundant tissue to flow under the back and rest comfortably on an extended seat cushion.

Adjustable back angle

Adjustable fore/aft seat and backrest

Adjustable height / width armrests combined with notched seat boards and narrow backs allow wider seats to get through standard doorways.

A redesigned seat bracket accommodates 24" deep seats without moving the center of gravity too far forward.

3.5"

13" or 17" back height

6.5" max offset

8" or 11" vertical gap

24" max seat depth
